

Corona Virus statement:

In a preponderance of care for all our customers and staff, we have temporarily closed our showroom sales facility.

We here are all healthy, and haven't experienced any issues, but take the threat of this virus very seriously. This closure is in accordance with CDC recommendations for limiting interactions and "social distancing".

Although we are limiting our physical interactions, we are still ready, willing, and able to serve all our customer's needs. Our service team will continue to work privately in our controlled environment, and our entire sales team is available by phone or e-mail anytime.

We are optimistic that this will be a short-term event and are all looking forward, this year more than ever, to fresh air and sunshine on our boats with our loved ones.

Thank you for your understanding!
